

A digital map at your fingertips!

Mecklenburg County is home to more than 70 miles of greenway!

Our digital map makes it easier than ever to enjoy the benefits of this vital resource.

Simply scan the QR code for more details on greenway amenities and highlights.

Digital map features include:

- Benches
- Greenway access points
- Greenway trails
- Restrooms and water fountains
- Boardwalks and bridges
- Bicycle racks and repair stations
- Amenities and caution

We are working to reduce our impact on the climate, improve health, and increase equity. To do this, we work with residents to advocate for the policies, practices, and funding needed to achieve:

- Diverse and walkable neighborhoods with homes for families of all incomes.
- Streets that are safe for walking, biking, using assistive devices, and driving.
- A fast, convenient, safe, and reliable public transit network and less dependence on cars for transportation.
- More bike paths, parks, greenways, and nature preserves.
- Cleaner air and water.

You can help us achieve this vision faster.
